SUMMARY

I am a dedicated professional who prioritizes attention to detail and thoroughness in all aspects of my work. With a meticulous approach, I strive to ensure that every task is completed to the highest standard, leaving no room for error. Beyond my commitment to excellence, I also possess a supportive and easy-going yet adaptive nature. I am always eager to assist and motivate others, fostering a collaborative environment where everyone can thrive and achieve their goals. Through my attention to detail and supportive demeanor, I aim to make a positive impact in every project and team I am a part of.

WORK EXPERIENCE

Company	Description	Responsibilities	Stack
FusionByte <i>December -2024 - present</i> Role: Front end React developer(part time)	FusionByte is an innovative AI-powered Learning and Development (L&D) platform transforming education and training in Africa. It offers personalized and engaging learning experiences for organizations, institutes, and individual learners.	Collaborated closely with backend developers and design team members to ensure seamless integration and functionality of all features. Conducted thorough research on third-party applications necessary for the project, emphasizing durability and flexibility in our selections.	React, TypeScript, Tailwind-CSS Vite, Redux, Post man.
Tracer study <i>August 2023 - January - 2024</i> Role: Front end React developer	An Ed-tech app developed in collaboration with the National Board for Technical Education (NBTE), designed to streamline digital tracer studies for skills development graduates in Nigeria.	I collaborated with cross-functional teams and took the lead in developing a user client that encompasses four distinct user types. Leveraging React context API and custom hooks, I successfully developed, integrated, and managed these user types, ensuring effective user management.	React, TypeScript, Tailwind-CSS Post man.

<u>Parkwell ng</u> <i>February 2022 - June 2023</i> Role: Front end Vue developer	Park-well is your go-to solution for stress-free parking, saving time and reducing the hassle of searching for parking spots in busy urban areas.	Collaborated with cross-functional teams to develop and implement a super admin dashboard, conducted strategic meetings with the design team, and maintained high design standards across all screens.	Vue, Tailwind-CSS, Post man.
<u>Virtual Terminal Technologies</u> <i>April 2021 - January 2022</i> Role : Front end React developer	A Token-based Financial technology with its sole purpose of ease of monetized transactions and other billings.	Develop and integrated the "coming soon" website and responsive web app interface for both customers and merchants. Ensured visual and design consistency, collaborating with cross-functional teams to maintain high design standards.	React.JS Bootstrap Post man.

PERSONAL PROJECTS

Name	Description	Stack
<u>The Blue Space</u> <i>February 2024 - present</i> Role : Lead/front-end(Mobile)	Blue Space is a virtual support group app designed to provide users with a safe and inclusive platform for expressing themselves openly.	React-native, Typescript, Node(express), PostgreSQL, CSS
<u>Buizi</u> <i>January 2024</i> Role : Front-end(Mobile)	A mobile application that utilizes Yelp business API to find and search local businesses around you	React-native, Typescript, CSS
<u>Expense tracker</u> <i>March 2023 - April 2023.</i> Role: Full-stack	An app that lets one effortlessly input and update daily expenses, then visualize them through dynamic graphs for informed financial insights.	React, Tailwind CSS, JavaScript, Node(express), PostgreSQL, Sequelize
